# AUTHORIZING ADP HOME OXYGEN APPLICATIONS

Practice FAQs

March 2018

---

I am a Graduate RT and have just started working for a community hospital. Recently, I signed and submitted a Home Oxygen application for ADP but it was rejected. Why was that?

## ANSWER

---

Graduate Respiratory Therapists (GRTs), Practical (Limited) Respiratory Therapists (PRTs), and Inactive CRYPTO Members are not eligible to sign the Assistive Devices Program (ADP) Home Oxygen applications, nor are any RRTs with terms, conditions or limitations preventing the independent administration of oxygen. In addition, new CRYPTO Members who are Registered Respiratory Therapists (RRTs) may not yet be eligible because their name might not have been registered on the ADP database. If you are unsure about your eligibility, please contact Carole Hamp, RRT – CRYPTO Manager of Quality Practice at [hamp@crto.on.ca](mailto:hamp@crto.on.ca).

More information on the ADP Home Oxygen Application process as it relates to RTs is available on the [CRYPTO website](#).
