### POLICY

The By-laws of the College allow for the appointment of Non-Council Committee members when the number of candidates nominated for an electoral district is fewer than the number of members to be elected in the electoral district, or where the seat of a Non-Council Committee member becomes vacant. Current Council policy provides that there be two (2) Non-Council Committee Members in each electoral district.

In determining which members to appoint, consideration will be given to the members' experience, qualifications, abilities and willingness to serve.
