

Background

Previously revised in March 2020, the Interpretation of Authorized Acts Professional Practice Guideline (PPG) has been revised to incorporate the previous position statement regarding the Use of AED's by Respiratory Therapists and create a more concise source of information.

Under the new CRTO's policy framework, the combination of these two documents will provide clear direction and expectations in the application of a form of energy and provide a better understanding of the ordering mechanism and delegation requirements.

Consultation Feedback Details

The document was posted for public consultation on the CRTO website and a consultation survey for participants to provide feedback was available.

Date consultation opened for feedback: October 14, 2021

Length of time posted for consultation: 30-days

Date consultation closed: November 14, 2021
