

## Overview

---

Applicants for registration with the College of Respiratory Therapists of Ontario (CROTO) must meet the registration requirements set out in the CROTO's [Registration Regulation](#) (O.Reg. 596/94, Part VIII). The current criteria for a General Certificate of Registration include, but are not limited to:

- a) graduation from an educational program approved by the CROTO, and
- b) successful completion of a CROTO approved examination.

The CROTO accepts the Health Professionals Testing Canada (HPTC)<sup>1</sup> Examination as the approved entry-to-practice examination (b, above). A person may be granted a (temporary) Graduate Certificate of Registration by the CROTO before completing the approved examination. A Graduate Certificate may be issued for up to eighteen (18) months.

## Eligibility

---

First-time exam writers who are or will be graduates of approved Respiratory Therapy programs<sup>2</sup> are automatically eligible to write the HPTC examinations. Candidates must apply and pay directly to the HPTC to write the exam.

## Exam Re-Writes

---

The CROTO will determine the eligibility of the following candidates who are writing the exam to meet (Ontario) registration requirements:

- Exam candidates who were not successful on their first exam attempt and who are applying to re-write the exam.
- Exam candidates who have not graduated from one of the approved respiratory therapy training programs.

---

<sup>1</sup> Formerly the Canadian Board for Respiratory Care (CBRC)

<sup>2</sup> List of approved programs is available on the CROTO website: <http://www.croto.on.ca/student/registration/accredited-schools>

## Study Plan Approval

---

1. Exam candidates who fail the exam three or more times are required to contact the CRTO regarding the development and submission of a study plan.
2. CRTO staff will review the study plan to ensure that the plan is consistent with the expectations outlined in the [Study Plan Guide](#). CRTO Staff will provide feedback to the applicant concerning the content of their study plan.
3. Following approval of the study plan, the exam candidate will be eligible to write the exam again (if they meet other requirements for registration, e.g., meet the fluency, currency, suitability to practice requirements and be eligible to work in Canada as a Respiratory Therapist).
